Abstract—This document is a model and instructions for \LaTeX . This and the `IEEEtran.cls` file define the components of your paper [title, text, heads, etc.]. ***CRITICAL: Do Not Use Symbols, Special Characters, Footnotes, or Math in Paper Title or Abstract.**

Index Terms—component, formatting, style, styling, insert

submission to the conference. Failure to remove the template text from your paper may result in your paper not being published.

I. PROBLEM STATEMENT

- 1) The original study's problem statement.

II. RESEARCH QUESTIONS

- 2) Research questions used in the replication (RQs).

III. APPROACH

- 3) Methodologies for answering each RQ (How to mine the repositories, the tools employed, and ML models they've used).

IV. RESULTS AND DISCUSSION

- 4) Results and discussion, including a comparison between the results of the replication study and the original study and a list of the limitations encountered during the replication.

V. CONCLUSION

- 5) conclusion
